

CONE HEALTH REHABILITATION CENTER Comprehensive Program

Report Card 2023

OUR PROGRAM

Making a decision about where to receive care can be a difficult decision to reach. Inpatient Rehabilitation is part of a strong continuum of care starting with acute care and ending with outpatient therapy and Physical Medicine and Rehabilitation follow up. Rest assured if you choose Cone Health Rehabilitation Center we will treat you and your family like our own. We want to exceed your expectations and will plan your care around meeting your goals. Below are a few highlights about our program:

- Board Certified Physical Medicine and Rehabilitation physicians.
- Valet services.

ACCOMMODATIONS

We have flexible visiting hours and encourage family members to participate in your care. We have specially equipped beds to help reduce falls. We perform hourly rounding to ensure your safety and comfort and provide sleeper recliners and cots so your family member can stay with you.

Satisfaction With Program

At discharge, people served rate service as 4.67 stars.¹

Characteristics of Patients Served

Age range is 20 - 101.

During 2023, the Cone Health Rehabilitation Center cared for 974 patients. Patients received an average of 2.35 hours of therapy per day. Patients spent an average of 13.80 days in the Cone Health Rehabilitation Center.

Gaining Independence

Regaining independence is a primary focus in rehab, and 744 (84 percent) patients completing the program achieved their individual goals.

Patients' Daily Functional Progress

(Average Functional Change Per Day)²
